

NAEEM KHAN

Web Developer

ABOUT ME

My name is Naeem Khan. I am very enthusiastic about making websites and even more about making them easy to use. I am a problem solver who enjoys coding and pays close attention to the details of any project. I aim to create web experiences that are not only useful for the users, but also easy and fun to use.

EXPERIENCE

Web Development Intern – Swismax Solution, Islamabad (2025)

- Built and deployed responsive websites using HTML, CSS, and JavaScript
- Participated in real-time team tasks and learned professional workflows
- Delivered a complete frontend project with hosting and version control

Freelance & Demo Projects (Ongoing)

- Created a full demo website for a Biryani Shop with WhatsApp integration
- Designed portfolio websites and landing pages for local businesses
- Shared demos on WhatsApp & social media to attract potential clients
